Chapter 1: Introduction of Kyushu Dental University

I Kyushu Dental University Charter

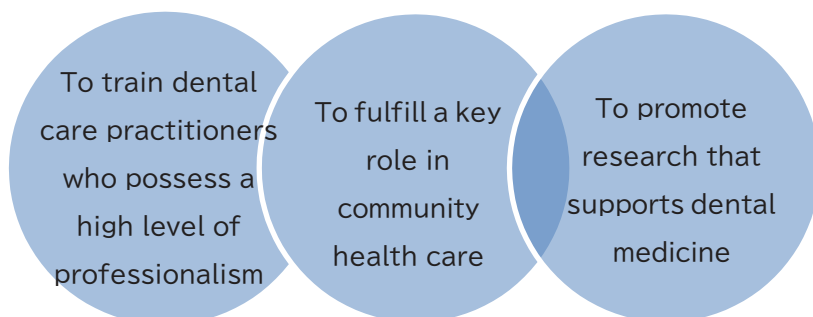

1. Preface

Marking our 100th anniversary in 2014, Kyushu Dental University hereby renews its dedication to expanding our holistic dental and medical education activities, as we look over the next 100 years of educating practitioners that can provide patient-centered dental care.

The Kyushu Dental University Charter has been established as the first step towards creating a university that fulfills this vision. All students, teaching staff, and personnel at Kyushu Dental University are committed to, and aspire to, fulfill the mission of the KDU.

2. Mission

The mission of Kyushu Dental University is to train dental care practitioners who possess a high level of professionalism and expertise, fulfill key roles in community health care, and promote research that supports dental medicine. This mission explains the kind of professional training, social contributions, and research that we strive to achieve.

3. Education and Research Goals

Kyushu Dental University engages in the following types of educational and research activities to fulfill our mission.

- 1) Training for dental care practitioners that are highly professional, broadly educated, and possess a high level of expertise and skills
- 2) Training for dental care practitioners that can correctly interpret scientific information and undertake dental care activities based on scientific evidence
- 3) Training for dental care practitioners that can provide dental care from the perspective of holistic health and adapt to changes in

- society, such as demographic changes
- 4) Training for dental care practitioners that can coordinate with people in other professions and support the local and regional communities through dental care
 - 5) Training for dental care practitioners who can strengthen international cooperation and exchange and undertake dental care activities from a global perspective
 - 6) To develop and conduct international research that can contribute to the development of the local and regional communities in cooperation with other disciplines

II Admission Policies - Qualities KDU Seeks in Applicants

1. Those who have a strong interest in oral health science research, and have the desire to actively conduct their own research in the local community with high ethical standards
2. Those who aspire to become dental hygienists, educators, or researchers who possess a high level of specialized knowledge and skills
3. Those who understand the significance of research that supports scientific evidence and have the desire to develop logical thinking skills
4. Those who have the desire to contribute to general health while enriching the oral health of people of all ages
5. Those who can display the kind of cooperativeness needed when developing research that collaborates with various professions
6. Those who desire to learn methods to conduct research from an international perspective and to make the most of these methods in various research

III Basic policy for selecting applicants

Selection will be made from those who have the desire to acquire logical thinking skills, basic academic skills for conducting research, and language skills in accordance with the basic policy for selecting applicants of the Kyushu Dental University Graduate School of Dentistry.

In the English examination, the applicants will be evaluated on the qualities necessary for completing the graduate school course, such as “knowledge and education,” “thinking skills, problem-solving skills, self-expression,” and language skills.” Likewise,

in the interview examination, the applicants will be evaluated on such qualities as “interest and enthusiasm in research and clinical practice of their desired field of study,” “thinking skills, problem-solving skills, self-expression,” “independence and cooperativeness,” “ethics,” and their “interest in making local and international contributions.
